Hi Brian: Please contact Carolyn Murphy/USACE (409.766.3044, carolyn.e.murphy@usace.army.mil) and assist in her question on the analyses of the identified watershed areas (i.e., the four identified circle areas other than the marine & coastal study).

Also, Sharon, Karen, Brian: maybe we can have a conference call with just USACE to make sure they have all the data we have so the upcoming joint discussions on April 14 will be productive?

Thanks,

Stephen L. Tzhone

Thanks Steve. And I will repeat my previous request to TCEQ and POHA for the reports/data you hold pertinent to this issue - the silence last time around was just deafening. We are aware of the TMDL database, but understand there are other reports/analyses developed by TCEQ on this project area/issue that we request. We also understand that POHA has conducted testing of PAs and bay bottom. We would like to review the existing data now, before the meeting. How about it guys? Carolyn

---

Hi Casey, Ron, Nicole:

- 1) Is everyone available for a conference call to touch base with each other on Tuesday April 5, from 10 - 11am?
- 2) Results of the SJRWP fingerprinting on the identified watershed areas will be finished this week. I'll be sending the report to you and we can discuss on the call as well.
- 3) Is there a specific POHA address and room that can identified on the agenda for the attendees?
- 4) Attached is the updated watershed map reflecting POHA comments (see legend):

Thanks,

Stephen L. Tzhone
